The Lives of Muhammad

Kecia Ali

“This book explores the stories around not just Prophet Muhammad, but also those close to him. The primary focus is to uncover the motivations behind these stories, and trace the shifting emphasis that evolved as these narratives were told and retold. These stories were tailored and pressed into service by both opponents and proponents of Muslims from the advent of Islam to contemporary times.”

—Muhammed Hassanali, *Booklist*

“Ali attempts to uncover not only the stories of the Prophet Muhammad and those close to him but also the motivations behind recording or retelling these stories...Ali traces the shifting emphasis on the narratives through time and across several authors who crafted these stories and deployed them either to legitimize or discredit Muhammad’s prophethood.”

—Muhammed Hassanali,

America’s Pastor

Billy Graham and the Shaping of a Nation

Grant Wacker

“Let it be said at once: this is the best book ever written about Billy Graham. I found this an absolutely captivating book and have read every word...One of the nation’s most accomplished historians of American Protestantism, Wacker aims to clarify Graham’s significance as a historical figure by taking into honest account every aspect of his public career.”

The Religion of the Future

Roberto Mangabeira Unger

How can we live in such a way that we die only once? How can we organize a society that gives us a better chance to be fully alive? How can we reinvent religion so that it liberates us instead of consoling us? These questions stand at the center of Roberto Mangabeira Unger's *The Religion of the Future*. Both a book about religion and a religious work in its own right, it proposes the content of a religion that can survive faith in a transcendent God and in life after death. According to this religion—the religion of the future—human beings can be more human by becoming more godlike, not just later, in another life or another time, but right now, on Earth and in their own lives.

Inventing the Individual

The Origins of Western Liberalism

Larry Siedentop

“It is a magnificent work of intellectual, psychological and spiritual history. It is hard to decide which is more remarkable: the breadth of learning displayed on almost every page, the infectious enthusiasm that suffuses the whole book, the riveting originality of the central argument or the emotional power and force with which it is deployed...Siedentop’s aim has a breathtaking grandeur about it: to persuade us to ask ourselves who we are and where we are going by showing us where we have come from. A challenging epilogue suggests that the answers are not very flattering.”

The Rise and Decline of American Religious Freedom

Steven D. Smith

Familiar accounts of religious freedom in the United States often tell a story of visionary founders who broke from the centuries-old patterns of Christendom to establish a political arrangement committed to secular and religiously neutral government. Steven D. Smith makes the case that the American achievement was not a rejection of Christian commitments but a retrieval of classic Christian ideals of freedom of the church and freedom of conscience.

Reading Lucretius in the Renaissance

Ada Palmer

After its rediscovery in 1417, Lucretius’s Epicurean didactic poem *De Rerum Natura* threatened to supply radicals and atheists with the one weapon unbelief had lacked in the Middle Ages: good answers. Scholars could now challenge Christian patterns of thought by employing the theory of atomistic physics, a sophisticated system that explained natural phenomena without appeal to divine participation, and argued powerfully against the immortality of the soul, the afterlife, and a creator God.

ZEEV WEISS

*Public Spectacles
in Roman and
Late Antique
Palestine*

Zeev Weiss

Public Spectacles in Roman and Late Antique Palestine introduces readers to the panoply of public entertainment that flourished in Palestine from the first century BCE to the sixth century CE. Drawing on a trove of original archaeological and textual evidence, Zeev Weiss reconstructs an ancient world where Romans, Jews, and Christians intermixed amid a heady brew of shouts, roars, and applause to watch a variety of typically pagan spectacles.

Between Pagan and Christian

Christopher P. Jones

“Standard accounts of the meteoric rise of Christianity after Constantine’s conversion in 312 are familiar. Belief in Jesus Christ became the established state religion and a requirement for holders of public office in the Roman Empire. Pagan practices like idol worship and animal sacrifice were outlawed. Christian orthodoxy had no serious spiritual or political competitors. Distilling a life’s scholarship, Christopher Jones unveils a more complex reality in *Between Pagan and Christian*...Jones powerfully establishes his main argument: that paganism, in a multiplicity of forms, persisted and was tolerated much later than the reign of Constantine.”

A Million and One Gods

The Persistence of Polytheism

Page duBois

In *A Million and One Gods*, Page duBois refutes the idea that the worship of multiple gods naturally evolves over time into the “higher” belief in a single deity and shows that polytheism has endured intact for millennia, despite the many hidden ways that monotheistic thought continues to shape Western outlooks.

“In this book, Page duBois touches on topics that are sure to bring surprising jolts of recognition and heated debate on some of our most blindly accepted, conventional categories.”

DIGITAL LOEB CLASSICAL LIBRARY

Founded by JAMES LOEB + 1911 + *Edited by* JEFFREY HENDERSON

www.loebclassics.com

“From Homer to St. Augustine, [the digital Loeb Classical Library] provides access...to the manifold glories of classical Greek and Latin.

For authority and completeness, nothing rivals it among the other online resources in the field...The Loeb Library...remains to this day the Anglophone world’s most readily accessible collection of classical masterpieces...Now, with their digitization, [the translations] have crossed yet another frontier.”

—TOM HOLLAND, *WALL STREET JOURNAL*

“Now is the crowning moment. The digitized Loeb Classical Library will enable anyone with a computer or proximity to a public, academic, or even secondary school library to have access to its entire scope of classical literature.”

—SUSAN KRISTOL, *WEEKLY STANDARD*

The mission of the Loeb Classical Library, founded by James Loeb in 1911, has always been to make Classical Greek and Latin literature accessible to the broadest range of readers. The digital Loeb Classical Library extends this mission into the twenty-first century. Harvard University Press is honored to renew James Loeb’s vision of accessibility and to present an interconnected, fully searchable, perpetually growing, virtual library of all that is important in Greek and Latin literature.

- Single- and dual-language reading modes
- Sophisticated Bookmarking and Annotation features
 - Tools for sharing Bookmarks and Annotations
- User account and My Loeb content saved in perpetuity
 - Greek keyboard
 - Intuitive Search and Browse
- Includes every Loeb volume in print
- New volumes uploaded regularly

*On Difficulties in the Church
Fathers: The Ambigua*

Volume I and II

Maximos the Confessor

Edited and translated by Nicholas Constatas

The Ambigua is Maximos the Confessor's greatest philosophical and doctrinal work. A broad range of theological topics are transformed in a synthesis of Aristotelian logic, Platonic metaphysics, Stoic psychology, and the arithmetical philosophy of a revived Pythagoreanism. The result is a labyrinthine map of the mind's journey to God that figured prominently in the Neoplatonic revival of the Komnenian Renaissance and the Hesychast Controversies of the Late Byzantine period.

Saints' Lives

Volume I and II

Henry of Avranches

Edited and translated by David Townsend

Henry of Avranches (d. 1262) was a professional versifier to abbots, bishops, kings, and at least one pope. The bulk of Henry's known output is a series of versified saints' lives, including those of Francis of Assisi, King Edmund, and Thomas Becket, nearly all of which are based on identified prose models.

Sufi Lyrics

Bulleh Shah

Edited and translated by Christopher Shackle

Born in Uch, Panjab, in present-day Pakistan, Bulleh Shah drew profoundly upon Sufi mysticism in his writings. His lyrics, famous for their vivid style and outspoken denunciation of artificial religious divisions, have long been held in affection by Hindus, Muslims, and Sikhs, and they continue to win audiences today across national boundaries and in the global Panjabi diaspora.

Sur's Ocean

Poems from the Early Tradition

Surdas

Edited by Kenneth E. Bryant

Translated by John Stratton Hawley

Surdas has been regarded as the epitome of artistry in Old Hindi religious poetry from the end of the sixteenth century, when he lived, to the present day. This remarkable volume reconstructs the early tradition of Surdas's verse—the 433 poems that were known to the singers of Surdas's own time as his. Here Surdas stands out with a clarity never before achieved.

Therigatha

Poems of the First Buddhist Women

Translated by Charles Hallisey

The *Therigāthā*, composed more than two millennia ago, is an anthology of poems in the Pali language by and about the first Buddhist women. These women were *theris*, the senior ones, among ordained Buddhist women, and they bore that epithet because of their religious achievements. The poems they left behind are arguably among the most ancient examples of women's writing in the world, and they are unmatched for their quality of personal expression and the extraordinary insight they offer into the lives of women in the ancient Indian past—and indeed, into the lives of women as such.

This new version of the *Therigāthā*, based on a careful reassessment of the major editions of the work and printed in the Roman script common for modern editions of Pali texts, offers the most powerful and the most readable translation ever achieved in English.

On the World and Religious Life

Coluccio Salutati

Translated by Tina Marshall | Introduction by Ronald G. Witt

On the World and Religious Life (c. 1381) is the first surviving treatise of Coluccio Salutati (1332–1406), chancellor of the Florentine Republic (1375–1406) and the leader of the humanist movement in Italy in the generation after Petrarch and Boccaccio. The work was written for a new monk who had prevailed on Salutati to write a treatise encouraging him to persevere in the religious life. His request led to this wide-ranging reflection on humanity's misuse of God's creation and the need to orient human life in accordance with a proper hierarchy of values.

Dialoguing in Late Antiquity

Averil Cameron

Christians talked, debated, and wrote dialogues in late antiquity and on throughout Byzantium. Some were philosophical, others more literary, theological, or Platonic; Aristotle also came into the picture as time went on. *Dialoguing in Late Antiquity* takes up a challenge laid down by recent scholars who argue that a wall of silence came down in the fifth century AD, after which Christians did not “dialogue.”

The Life of Saint Basil the Younger

Critical Edition and Annotated Translation of the Moscow Version

Edited and translated by Denis F. Sullivan,

Alice-Mary Talbot, and Stamatina McGrath

The Life of Saint Basil the Younger, one of the longest and most important middle Byzantine saints’ lives, presents the life of a holy man who lived in Constantinople in the first part of the tenth century. Usually described as a fictional saint, he had the distinction of residing in private homes rather than in a monastery, performing numerous miracles and using the gift of clairvoyance. The vita, purportedly written by one of Basil’s disciples, a pious layman named Gregory, includes many details on daily life in Constantinople, with particular attention to slaves, servants, and eunuchs.

The “Greatest Problem”

Religion and State Formation in Meiji Japan

Trent E. Maxey

At its inception in 1868, the modern Japanese state pursued policies and created institutions that lacked a coherent conception of religion. As a result, many of the cardinal institutions of the state, particularly the imperial institution, eventually were defined in opposition to religion. Drawing on internal government debates, diplomatic negotiations, and the popular press, Trent E. Maxey documents how the novel category of religion came to be seen as the “greatest problem” by the architects of the modern Japanese state.

Buddhism, Unitarianism, and the Meiji Competition for Universality

Michel Mohr

In the late 1800s, as Japanese leaders mulled over the usefulness of religion in modernizing their country, they chose to invite Unitarian missionaries to Japan. Focusing on the cascade of events triggered by the missionary presence of the American Unitarian Association on Japanese soil between 1887 and 1922, Michel Mohr’s study sheds new light on this formative time in Japanese religious and intellectual history.

The Princess Nun

Bunchi, Buddhist Reform, and Gender in Early Edo Japan

Gina Cogan

The Princess Nun tells the story of Bunchi (1619–1697), daughter of Emperor Go-Mizunoo and founder of Enshōji. Bunchi advocated strict adherence to monastic precepts while devoting herself to the post-humous welfare of her family. As the first full-length biographical study of a premodern Japanese nun, this book incorporates issues of gender and social status into its discussion of Bunchi’s ascetic practice and religious reforms to rewrite the history of Buddhist reform and Tokugawa religion. Through its illumination of the relationship between the court and the shogunate and its analysis of the practice of courtly Buddhism from a female perspective, this study brings historical depth and fresh theoretical insight into the role of gender and class in early Edo Buddhism.
